LESTERBUILDINGS.COM

*Meets Energy Star reflectivity standards. These colors have a lower roof surface temperature by up to 100°F, decreasing the amount of heat transferred into a building's interior, saving money and energy by reducing the amount of air conditioning needed to keep a building comfortable. Check EnergyStar.gov for available tax credits.

Colors shown are representative only and limited by printing and viewing conditions. For exact color representation, ask your Lester rep for samples. Colors and components featuring colors are subject to change without notice. Custom steel panel colors available upon request. Must meet minimum square feet requirement.

Not all building features are represented in this photo. When making color selections for your building, be sure to review all component colors with your Lester sales rep.

valspar

Valspar has been the exclusive paint supplier for Lester Buildings for more than 30 years. Our long-term partnership, coupled with Valspar's 200 years of coating expertise brings a proven track record of quality, integrity and dependability.

As one of the leading paint manufacturers in the world, Valspar is known for their innovation to the coatings industry. With an enduring commitment to durability and an ever-expanding palette of color, Valspar offers unlimited color freedom.

Limitless Color Options

Lester Buildings offers the most color combination options in the industry – for a design as unique as you are. As shown above, you can select colors for every component of your building. Showcase your style and enhance your property's curb appeal. Most customers select a combination of two or three colors. Typically the roof color matches the trim and accessories, with a contrasting wall color. As you can see, building color combinations are nearly limitless! For inspiration, visit LesterBuildings.com to see thousands of building photos.
